Supporting information

Table legends

Table S1: List of proteins that were identified by LC-MS/MS after in gel digestion only in the COPD sample, only in the non-COPD control sample or in both samples.

Table S2: List of proteins that were identified with Protein Pilot® in Study I.

Table S3: List of proteins that were identified with Protein Pilot® in Study II.

Figure legends

Figure S1: Immunohistochemistry of lactotransferrin in lung tissue from (A) a COPD patient (current smoker) and (B) a non-COPD control (non-smoker).

Figure S2: Immunohistochemistry of HMGB1 (high mobility group protein B1) in lung tissue from (A) a COPD patient (former smoker) and (B) a non-COPD control (never smoker).

Figure S3: Immunohistochemistry of alpha 1-antichymotrypsin (serpin A3) in lung tissue from (A) a COPD patient (current smoker) and (B) a COPD patient (former smoker).
